NexGeM

METAL WORKS DIGITAL

NexGeM – Next Generation Metalworking

Experience the digitalization of production live!

Whether new machinery or existing installations, software, control systems or networking: at NexGeM, you'll meet the suppliers who are driving digital innovation in metalworking.

THE THEMES

Artificial Intelligence in Metalworking

Digital Process Chain and Digital Twins

Smart Factory and Connected Manufacturing

Four reasons to exhibit at NexGeM:

1. Present your solutions in the context of the **entire process chain.**
2. Take the opportunity to additionally engage with the **Hannover Messe audience** – international contacts from the fields of digitalization and IT.
3. Align with an **expanding market:** the investment spotlight is turning to **AI and data-driven manufacturing.**
4. Help shape the event **premiere** and stake your claim to a topic before others do.
